DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because of the following informality:

In the last line, delete "Fig. 1".

Correction is required. See MPEP § 608.01(b).

2. 35 U.S.C. 112, first paragraph, requires the specification to be written in "full, clear, concise, and exact terms." The specification is replete with terms which are not clear, concise and exact. The specification should be revised carefully in order to comply with 35 U.S.C. 112, first paragraph. ***Examples of some*** unclear, inexact or verbose terms used in the specification are:

- Page 2, line 8, "grinding wheel is associated to the free end".
- Page 2, line 11, "click bulge intended for cooperation".
- Page 2, line 12, "'An adapter is associated to the inside".
- Page 2, line 16, "impose from the above upon a pair of pins".
- Page 2, lines 17 and 18, "Two distance screws".
- Page 3, line 7, "achieved by that the first".
- Page 4, line 19, change "An adjusting arm 17 with an on-off switch 17" to read, "An adjusting arm 17 with an on-off switch 18".
- Page 5, line 18, "two distance bolts".
- Page 5, line 22, "with the optional force".
- Page 5, line 32, "pressure member 37 to be fine set to the thickness".

Claim Objections

3. Claims 1 and 2 are objected to because of the following informalities:

Claim 1, line 12; and line 18, the phrase "is associated to" is awkwardly worded".

Claim 1, lines 20 and 28, the phrase "distance bolts" is awkwardly worded.

Claim 2, line 2, the phrase "impose from the above upon a pair of pins" is awkwardly worded.

4. Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. **Claims 1-9** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 28 and 29, "a pair of distance bolts (38) arranged practically rectangular to the saw blade" is confusingly worded.

Claim 1, lines 29 and 30, the phrase "at that time they are pressing" is confusingly worded. It is not clear as to what *they* refers to.

Allowable Subject Matter

7. **Claims 2-9** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. **Claim 1** would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
